Using BigFuture™

The College Board developed BigFuture in collaboration with parents, students and educators to make the college planning process easier and less overwhelming. Students can:

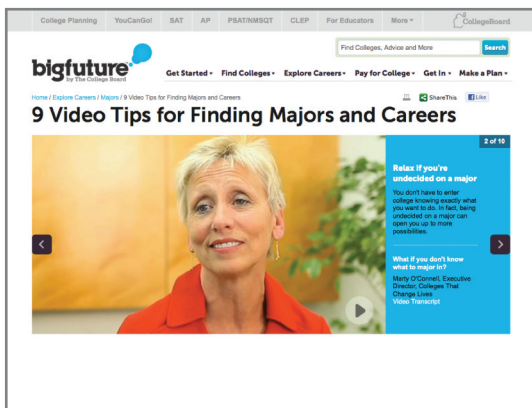

- **Start with a focus on themselves;** their interests, what and where they want to study, how much financial assistance they think they'll need and other important considerations;
- **Search for colleges** and easily compare them based on factors ranging from majors to size and location;
- **Watch videos from real students** who explain what they did to get into college and what their college experience has been like;
- **Hear from education professionals** who provide the inside story on preparing for and getting into college;
- **Learn about the different kinds of colleges** and how to find one that is the right fit for them;
- **Find valuable help in paying for college** by discovering what goes into college costs and how to find financing; and
- **Build a personalized plan** for realizing their goals and getting into a college that meets their needs.

BigFuture will make you feel more confident about your student's ability to go to college. And it will give you the tools you need to help your student get there.
